

# Scholarships

## Support a Student

Scholarships administered through The Community Foundation provide financial support to students. Through a scholarship fund, donors can support the education pursuit of young people while honoring or memorializing someone special.

## Establishing a Fund

Companies, organizations, families, and individuals establish scholarship funds that benefit students graduating from a specific school, studying in a field, attending a given school, or meeting any number of qualifications. As the establishing donor, you have the opportunity to name the fund. You will work closely with Foundation staff to determine the criteria for selecting a recipient. Donors may also choose to be involved in the selection process.

Murray's Jewelers Scholarship

## Celebrating the Award

The Foundation maintains close relationships with local high school guidance counselors and promotes scholarship applications to ensure qualified students apply. A selection committee reviews all applications. Once a recipient is selected, scholarship donors will receive details about the selected student. Recipients and their awards are shared with local media and on the Foundation's website and social media.

Fund Minimum: \$25,000 | Administration Fees: 2% | Spending Rate: 4.3%
